

E Farm HK (川上農莊)

An organic farm and a social enterprise located at Fanling is now inviting dynamic and motivated candidate for the position of:

Project Manager (項目經理)

The Organization

We are located inside the Pat Sin Leng Country Park and surrounded by a branch river of Tan Shan River, which gives us a flourishing eco-system. Our farm is 50,000 sq. ft., small but beautiful. Apart from producing fresh organic vegetables for the community, we raise public awareness on environmental protection thru education workshops, talks and eco-tours, research on different farming related matters, share our experience with the public, strengthen the bonds between organic farmers, and promote community gardening.

The Role

This is a one year project based position. You will be responsible to oversee all aspects (establishment, implementation, financial control and reporting) of an SDF funded project regarding kitchen waste treatment with black soldier flies. Detail work includes daily operation, general administration, promotion, design, liaising with stakeholders, coordinating activities, executing outdoor demonstrations and etc.

Skills Required

University Degree holder with 3 years working experience; experience with funded project and running school education program is an advantage; passion for nature; strong problem solving and analytical ability; being a good team player, with strong planning and organization skills; excellent command of English and Cantonese, computer literacy; proven skills in facilitation, design and implementation of workshops or camps; ability to market and organize programs to the public and organizations; able to work occasionally at weekends and public holidays. Candidate with less experience will be considered as Project Supervisor (項目主任).

Working Areas

Shatin and Fanling

Salary

Negotiable
